

2ND GRADE MATH SUMMER CAMP

COURSE DESCRIPTION

All cohorts will meet Tuesday, Wednesday, and Thursday for 3 weeks, for 35 minutes per session.

Cohort Options:

- **Cohort A:**
 - June 13 - June 29th
 - 10:45am PDT/1:45pm EDT
- **Cohort B:**
 - July 11 - July 27th
 - 9:15am PDT/12:15am EDT
- **Cohort C:**
 - August 1 - August 17th
 - 11:45am PDT/2:45pm EDT

Week 1: Adding and Subtracting within 100 (2.OA)

In Week 1, we'll dive into adding and subtracting within 100, helping your child develop a deep understanding of these essential operations. With engaging activities and interactive games, your child will work towards mastery of the basics of addition and subtraction, using a range of strategies to find the correct answers.

Week 2: Number Sense and Place Value within 100 (2.NBT)

During Week 2, we'll focus on number sense and place value within 1000, helping your child develop a strong foundation in the principles of math. From recognizing the value of individual digits to understanding the relationship between different numbers, your child will gain a deep understanding of how numbers work, setting them up for success in more advanced math classes.

Week 3: Applications of: Measurement, Time, Money, and Data (2.MD)

In Week 3, we'll explore the exciting world of measurement, time, money, and data. Your child will learn how to measure objects accurately, tell time on an analog clock, and count money. They'll also learn how to collect, organize, and interpret data, developing essential skills that will serve them well in a variety of contexts.
