

4TH GRADE ELA SUMMER CAMP

COURSE DESCRIPTION

All cohorts will meet Tuesday, Wednesday, and Thursday for 3 weeks, for 35 minutes per session.

Cohort Options:

- **Cohort A:**
 - June 13 - June 29th
 - 1:45pm PDT/4:45pm EDT
- **Cohort B:**
 - July 11 - July 27th
 - 9:15am PDT/12:15pm EDT
- **Cohort C:**
 - August 1 - August 17th
 - 10:45am PDT/1:45pm EDT

Week 1: Principles of Multiplication and Division for 4th Grade

In Week 1, we will dive into the principles of multiplication and division for 4th grade. Our experienced instructors will guide your child through engaging activities that will help them develop a deeper understanding of these essential concepts. They will learn how to apply multiplication and division strategies to solve real-world problems and develop critical thinking skills. Whether they are just starting to learn these concepts or want to improve their skills, we've got something for everyone!

Week 2: Place Value and Application of Multiplication and Division Strategies

In Week 2, we will focus on place value and the application of multiplication and division strategies. Students will learn how to work with multi-digit numbers, use models and strategies to solve complex problems, and develop problem-solving skills. Our instructors will provide individualized attention to help them master these important concepts and become confident mathematicians.

Week 3: Advanced Fractions and Decimal Notation

In Week 3, we will explore advanced fractions and decimal notation. Students will learn how to read, write, and compare fractions and decimals, as well as how to perform operations with these numbers. Our instructors will guide your child through real-world applications of these concepts, helping them to see how math is relevant to their everyday lives.
